SUMMARY

- Results-oriented full-stack developer with expertise in front-end and back-end web development using React.js, HTML, CSS, and JavaScript.
- Skilled in building energy smart-metering platforms, supporting applications, and generating code following the MVC paradigm and Agile development cycles.
- Proficient in Linux, SQL database interactions (Postgres), and AWS database management.
- Experience in creating documentation, testing suites, and providing end-user training and support.
- Excited about the opportunity to implement mobile app development for iPhone and Android OS.
- Strong problem-solving skills and a collaborative mindset, committed to delivering high-quality code in a fast-paced environment.

TECHNICAL SKILLS

- | | | | |
|---------------|-------------------|----------------|--------------|
| • HTML | • CSS | • JavaScript | • Python |
| • AJAX | • React.js | • Node.js | • Java |
| • Python | • SQL | • Postgres | • MongoDB |
| • AWS | • Firebase | • MVC | • Agile |
| • IOS (swift) | • Android(kotlin) | • React Native | • Typescript |
| • Git | • Heroku | • Jest | • GraphQL |
| • Redux | • Tailwind CSS | • Docker | • Kubernetes |

EDUCATION

Ontario College Graduate Certificate in Mobile Application Development [Co-op]

Fanshawe College / London, Canada

Sep 2022 – Dec 2023

- 2023 Winter Term (GPA 4.16)
- 2022 Fall Term (GPA 3.8)

Bachelor of Technology in Computer Science and Engineering

Parul University / Vadodara, India

Sep 2017 – April 2021

- CGPA: 8.5 / 10

PROFESSIONAL EXPERIENCE

Full Stack Developer (Intern)

Hyeon Infotech | Surat, India

Sep 2021 – April 2022

- **Skills and Experience:** Proficient in MERN stack, React with Typescript, GraphQL, Firebase, AWS, Docker, and Heroku. Demonstrated excellent communication skills and worked effectively under senior guidance.
- **Projects:**
 - **Senpie:**
 - A seamless crypto trading platform built using MERN stack and Firebase for user authentication.
 - Hosted on Heroku, responsible for developing new features, improving the user experience, and ensuring platform stability.
 - Collaborated with cross-functional teams to design, develop, and deploy reports and enhancements for existing records and reports.
 - Assisted in setting up new builds for software product releases across multiple platforms and operating systems.
 - Created and maintained automated test suites, verifying successful installation and configuration.
 - **AutoTech:**
 - An e-commerce website for automotive products built using React with Typescript, GraphQL, AWS, and Docker.
 - Responsible for optimizing website performance, improving the checkout process, and implementing new features.
 - smart-metering platform using PHP, HTML, CSS, and JavaScript, adhering to the MVC paradigm and Agile development cycles.
 - Implemented front-end AJAX calls to enable real-time system updates, improving user experience and responsiveness.
 - Managed SQL databases on AWS, addressing database situations, and optimizing performance.
